DOGS FOR LIFE - ANIMAL THERAPY PROGRAM

The Dogs For Life program has been very successful over the past 2 years and is being run again this year.

DOGS FOR LIFE is focused on working with specifically trained dogs within mutually defined programs, to assist people to achieve predefined therapeutic goals and to create a lasting partnership that aims to improve quality of life, enhance independence and facilitate increased participation in society. (see www.dogsforlife.com.au)

Students are timetabled into the program but we try to include as many students as possible each week so your child may be offered a session if other students are away. Please let me know via school office if you **do not** want your child to be involved in this.

Thank you.
